Welcome

Thank you for choosing Network Health Plan (NHP). As a member of Network Health, you should get all of your health care from doctors and hospitals in the Network Health network. See the Find a Provider page at www.mhswi.com for a list of these providers. You may also call our Member Service Department at (888) 713-6180 to get a paper copy. Providers accepting new patients are marked in the provider directory.

USING YOUR FORWARDHEALTH ID CARD

Your ForwardHealth ID card is the card you will use to get your BadgerCare Plus or Medicaid SSI benefits. Network Health does not issue ID cards. Always carry your ForwardHealth ID card with you, and show it every time you go to the doctor or hospital and every time you get a prescription filled. You may have problems getting health care or prescriptions if you do not have your card with you. Also bring any other health insurance cards you may have.

CHOOSING A PRIMARY CARE PHYSICIAN (PCP)

When you need care, it is important to call your primary care provider (PCP) to manage all of your healthcare. You can choose a primary care physician from the list of doctors accepting new patients, as marked in the Network Health Provider Directory. NHP doctors are sensitive to the needs of many cultures. To choose a primary care physician or to change primary care physicians, call our Customer Service Department at 1-888-713-6180. Your primary care physician will help you decide if you need to see another doctor or specialist and, if appropriate, give you a referral. Remember, you must get approval from your primary care provider before you see another doctor.

Women may see a women's health specialist, such as an Obstetrician and Gynecologist (OB/GYN), nurse midwife, or licensed midwife, without a referral in addition to choosing from their primary care physician.

RURAL AREA RESIDENT

If you live in a rural area with only one HMO and your current primary care physician is not a Network Health provider, you may continue to see this provider for up to 60 days. Please call us as soon as you enroll to let us know who your provider is. If this provider is still not in the Network Health network after 60 days, you will be given a list of participating providers to make a new choice.

ACCESSING THE CARE YOU NEED

Emergency care is care needed right away. This may be caused by an injury or a sudden illness. Some examples are:

- Choking
- Trouble breathing
- Serious broken bones
- Unconsciousness
- Severe burns
- Severe pain
- Severe or unusual bleeding
- Suspected poisoning
- Suspected heart attack
- Suspected stroke
- Convulsions
- Prolonged or repeated seizures

If you need emergency care, try to go to an Network Health provider for help. If your condition can't wait, go to the nearest provider (hospital, doctor or clinic). Call 911 or your local police or fire department emergency services if the emergency is very severe and you are unable to get to the nearest provider.

If you must go to a non-Network Health hospital or provider, call us at (888) 713-6180 as soon as you can and tell us what happened.

Remember, hospital emergency rooms are for true emergencies only. Unless you have a true emergency, call your doctor or our 24-hour emergency number at 1-800-280-2348 before you go to the emergency room. If you do not know if your illness or injury is an emergency, call 24-hour emergency number at 1-800-280-2348. We will tell you where you can get care.

A prior authorization is not required for emergency services.

URGENT CARE

Urgent Care is care you need sooner than a routine doctor's visit, but is not an emergency. Some examples are:

- Most broken bones
- Sprains
- Non-severe bleeding
- Minor burns
- Minor cuts
- Bruises
- Most drug reactions

You must get urgent care from Network Health doctors unless you get our approval to see a non-Network Health doctor. Do not go to a hospital emergency room for urgent care unless you get approval from Network Health first.

CARE WHEN YOU ARE AWAY FROM HOME

Follow these rules if you need medical care but are too far away from home to go to your regular primary care physician (PCP) or clinic.

For emergencies, go to the nearest hospital, clinic or doctor. Call Network Health at 1-888-713-6180 as soon as you can to tell us what happened.

For urgent or routine care away from home, you must get approval from us to go to a different doctor, clinic or hospital. This includes children who are spending time away from home with a parent or relative. Call us at (888) 713-6180 for approval to go to a different doctor, clinic or hospital.

CARE DURING PREGNANCY AND DELIVERY

If you become pregnant, please let us and your enrollment agency know right away, so you can get the extra care you need. You do not have copayments when you are pregnant.

You must go to a Network Health hospital to have your baby. Talk to your Network Health doctor to make sure you know which hospital you are to go to when it is time to have your baby. Do not go out of area to have your baby unless you have Network Health approval. Your Network Health doctor knows your history and is the best doctor to help you.

Also, talk to your doctor if you plan to travel in your last month of pregnancy. We want you to have a healthy birth and a good birthing experience, so it may not be a good time for you to be traveling.

WHEN YOU MAY BE BILLED FOR SERVICES

Covered and Noncovered Services

Under BadgerCare Plus or Medicaid SSI, you do not have to pay for covered services other than required copayments. The amount of your copay cannot be greater than it would have been in fee-for-service. To help ensure that you are not billed for services, you must see a provider in Network Health's network. The only exception is for emergencies. If you are willing to accept financial responsibility and make a written payment plan with your provider, you may ask for noncovered services. Providers may bill you up to their usual and customary charges for noncovered services. If you get a bill for a service you did not agree to, please call 1-888-713-6180.

COPAYMENTS

Under BadgerCare Plus and Medicaid SSI, Network Health and its providers and subcontractors may bill you small service fees, called copayments. The following members do not have to pay copayments:

- Nursing home residents
- Pregnant women
- Members younger than 19 years old who are members of a federally recognized tribe
- Members younger than 19 years old with incomes at or below 100 percent of the federal poverty level

You may have copayments for emergency services provided outside of Wisconsin. If you are a BadgerCare Plus childless adult, you may have an \$8.00 copay if you go to the emergency room when it is not an emergency.

MEDICAL SERVICES RECEIVED OUTSIDE WISCONSIN

If you travel outside Wisconsin and need emergency care, health care providers in the area where you travel can treat you and send the bill to Network Health. You may have copayments for emergency services provided outside Wisconsin.

Network Health does not cover any services, including emergency services, provided outside the United States, Canada, and Mexico. If you need emergency services while in Canada or Mexico, we will cover the service only if the doctor's or hospital's bank is in the United States. Other services may be covered with Network Health approval if the provider has a U.S. bank. Please call Network Health if you get any emergency services outside the United States.

If you get a bill for services, call our Customer Service Department at 1-888-713-6180 right away.

OTHER INSURANCE

If you have other insurance in addition to Network Health, you must tell your doctor or other health care provider. Your doctor or other health care provider must bill your other insurance before billing Network Health. If your Network Health doctor or other health care provider does not accept your other insurance, call the HMO Enrollment Specialist at 1-800-291-2002. The HMO Enrollment Specialist can tell you how to use both insurance plans.

Your child may look and feel well, yet may have a health problem. Your doctor wants to see your children for regular checkups, not just when they are sick.

The Health Check health program has three purposes:

1. To find and treat children's health problems early,
2. To let you know about the special child health services you can receive, and
3. To make your children eligible for healthcare not otherwise covered.

The Health Check checkup includes:

- Age appropriate immunizations (shots)
- Blood and urine lab tests (including blood lead level testing when age appropriate)
- Dental screening and a referral to a dentist beginning at 1 year old
- Health and developmental history
- Hearing screening
- Physical examination
- Vision screening

To schedule a HealthCheck exam or for more information, call our Customer Service Department at 1-888-713-6180.

CARE MANAGEMENT SERVICES

Network Health has several programs to improve the health of our members. We do this through education and personal help from our staff. This is referred to as care management. The goal of this service is to add to the quality of your care and help you improve your health.

Care management is part of your health benefits and is provided to you at no cost. Network Health pays for this service. You may be selected for these services in a variety of ways:

- Your doctor may enroll you
- We may call you after reviewing your medical information
- You or your caregiver may call (888) 713-6180 and ask for help

Your care manager will help you work toward better health using the following methods:

- Frequent contact with members, family and health providers
- Member assessment and evaluation
- Care planning and setting short- and long-term goals
- Coordination of services to provide necessary and efficient care

A care manager is a resource person:

- To answer questions about treatment
- To help you meet your health needs by using knowledge of the healthcare system
- To help you consider your options and choices
- To work with you to develop a plan of care for home health services, if needed. These might include such things as nursing services, medical equipment and physical therapies
- To help with referrals for treatment at healthcare facilities
- To act as your link to Network Health
- To identify covered benefits and help with referrals to specialists
- To help to plan your transition out of the hospital. This helps reduce the stress of dealing with an often complex healthcare system

Confidentiality: The information obtained through our care management process is confidential. It is shared only when needed to plan your care and to properly pay your claims.

Ethics: Network Health provides care management services in an ethical manner based on the Commission for Care management Certification's Statement on Ethics and Standards of Practice.

Upon your request, information on Network Health policies and standards regarding its ethical framework for care management, are available to staff, members, consumers, contractors and clients.

Health problems: If you have a serious condition and need extra help, please call Network Health. Together we can decide if you need a care management program at no cost to you.

TRANSITIONS FROM PEDIATRIC CARE

We can help you or your child transition from pediatric care to adult care. We will work with the pediatric practitioner to make sure the change goes smoothly. Members may continue to see their pediatric practitioner after they are adults, but it is important to move to a PCP that treats adults eventually. If you need help making this shift, just call us at 888-713-6180 and ask for an advocate. The advocates can also help with transitioning from Birth-to-Three programs.

MEDICAL DECISIONS

Decisions Network Health makes about the services you receive are based on the care you need and on your coverage. Network Health does not do or approve of the following:

- We do not reward providers for reducing care or services
- We do not reward anyone for issuing denials of service
- We do not provide incentives for our decision-makers that result in underuse of services

NEW TECHNOLOGY

We have a clinical policy committee. The committee is made up of doctors. They evaluate new technologies and new uses for technology. This is done as a review for possible inclusion in your benefit plan. We know it is important to stay up to date and we want our members to have access to safe and effective care.
