CMS Final Rule 0057-F Prior Authorization Requirements

List effective 12/31/2025

Beginning in 2026, the CMS Interoperability and Prior Authorization Final Rule (CMS-0057-F) requires Medicaid managed care health plans to publicly publish annual prior authorization information on their websites. This information includes prior authorization requirements in effect for Calendar Year 2025, as well as select utilization management performance metrics.

MHS Health Wisconsin requires prior authorization (PA) as a condition of payment for many services. This Notice contains information regarding such prior authorization requirements and is applicable to all Medicaid products offered by MHS Health Wisconsin.

MHS Health Wisconsin is committed to delivering cost effective quality care to our members. This effort requires us to ensure that our members receive only treatment that is medically necessary according to current standards of practice. Prior authorization is a process initiated by the physician in which we verify the medical necessity of a treatment in advance using independent objective medical criteria and/or in network utilization, where applicable.

It is the ordering/prescribing provider's responsibility to determine which specific codes require prior authorization.

Please verify eligibility and benefits prior to rendering services for all members. Payment, regardless of authorization, is contingent on the member's eligibility at the time service is rendered. NON-PAR PROVIDERS & FACILITIES REQUIRE AUTHORIZATION FOR ALL HMO SERVICES EXCEPT WHERE INDICATED.

The purpose of this requirement is to increase transparency and provide both members and providers with greater visibility into prior authorization processes and decision-making.

For the most current CPT and HCPCS code listings that require prior authorization, please refer to the Online Prior Authorization Tool available on our website at: [Wisconsin Medicaid Pre-Authorization Form | MHS Health Wisconsin](#).
